2520080063 CIAS – PRACTICAL 1

Step 1: Open the AWS website and access the console

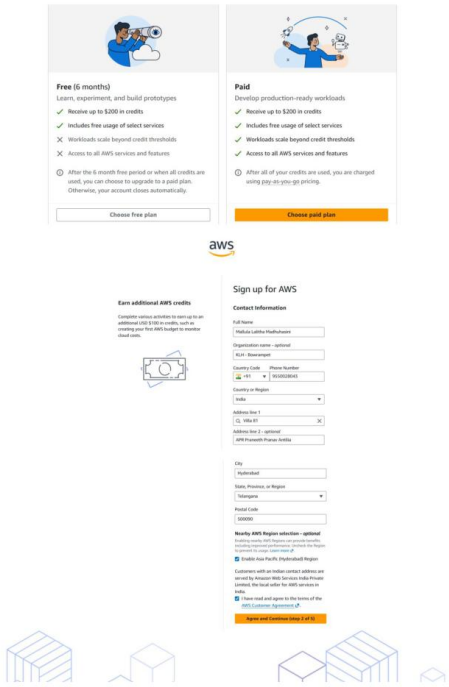

1. Open a browser and visit https://aws.amazon.com/.
2. Choose Sign in to the console, or Create an AWS Account if you are new.
3. Existing users can enter their AWS sign-in details and select Sign in.
4. New users should continue with the registration screens below.

Step 2: Register and verify your email address

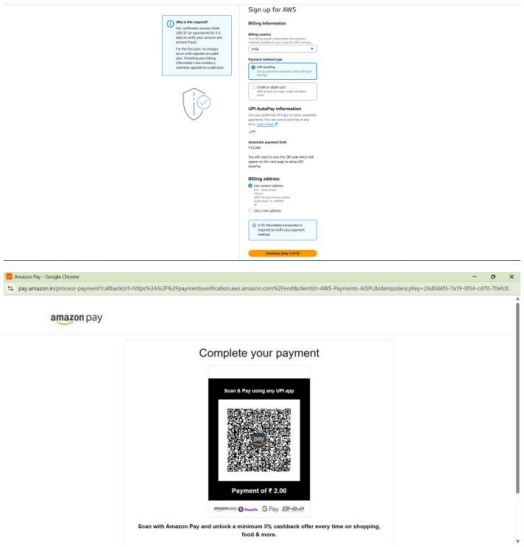

5. Enter your root user email address and AWS account name.
6. Select Verify email address.
7. Check your inbox for the AWS verification code, enter it, and select Verify.
8. Create and confirm a strong root user password, then select Continue.

Step 3: Choose a plan and enter contact information

9. Review the AWS plan options shown in the screenshot.
10. Select the Free plan for the free-plan practical, if appropriate.
11. Enter your full name, contact number, country, address, city, state and postal code.
12. Review and accept the AWS Customer Agreement, then select Agree and Continue.

Step 4: Complete billing verification

13. Review billing information and choose the available payment method (UPI AutoPay is shown).
14. Enter or confirm the required payment details and billing address.
15. Select Continue to proceed to payment verification.
16. If Amazon Pay opens, use a supported payment app to scan the QR code and complete the on-screen verification.
17. Return to AWS and follow any remaining account activation instructions.

THE END
